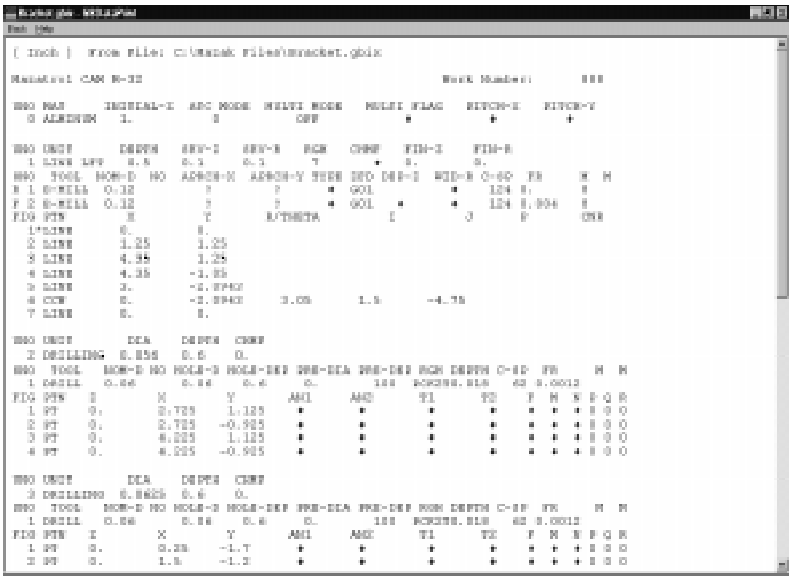
CamLink for Windows

GB\DataPrint

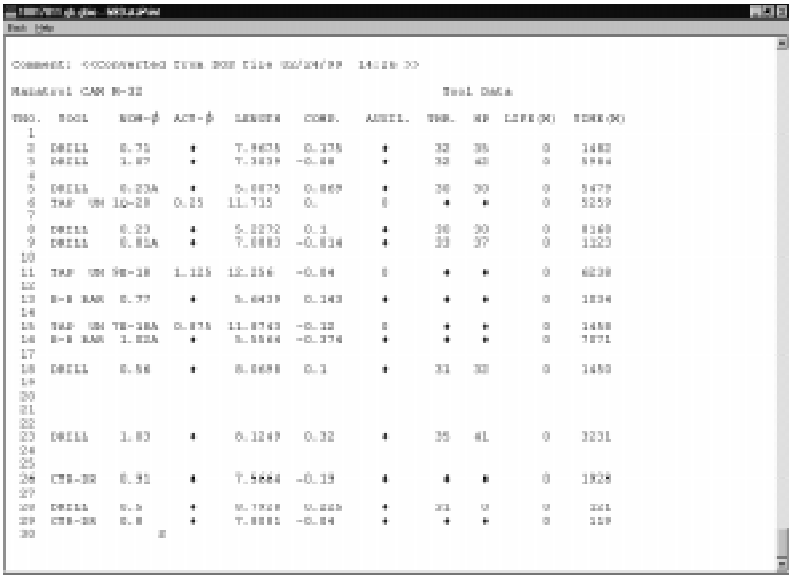
For easy viewing of your Mazatrol programs you need CamLink's GB\DataPrint software.

G*B*\DataPrint is easy to use and is in the format you're used to seeing at the control. With just a couple clicks of your mouse, you can view your Mazatrol data files directly on your PC screen, or print a hard copy.

In Addition, you have more control over the information you choose to print.



Sample Work Number Print to Screen



Sample Tool Data Print to Screen

For example, you can print all the Work Numbers contained in a data file, or select only specific ones. You can also print support information including:

- Tool Data
- Layout
- Setup
- TPC

Supports 640T, T+, T32, T2/3 640M, M+, M32, M2, 640MT

* Requires GB\DataTransfer
